THE RESIDENCY
MYSORE

Bangalore
22 January 1895

My dear Dewan

I have your D.O. of 19 Jany and enclosed extract from the Evening Mail of the 17th inst which I take above for movement in his return.

Meanwhile I may tell you from private information that shortly before Colonel Henderson left for Calcutta a telegram was received for despatch to certain Newspapers reporting rumours

of a difference of many lacs of rubees
in the Keepers Treasury - the
telegram before Mr Bates was
submitted to the President for
opinion as to whether it might
not be entitled being that
the contents ~~contained~~ might destroy
people mind in keepers at a
Critical time - Colonel Henderson
knows law to Ryotin and
the telegram was ordered to
be detained.

From the way in which
Colonel Henderson considered that
the confidence of the Inspector in
the Admiral was not likely to be
shaken by such a measure as
stated
that should be introduced were
the advantage of the Admiral
& let such measure be acted
upon & suppressed or contradicted then.

The Admiral's mind apparently
is a great relief Exerts in Consequence
knowledge of the nature
which Forbes & Seymour from
personal observation were known
their Ratio and the Admiral
& our a sufficient Precaution &

Even bad English - so far such communications have remained unnoticed and have done no harm. In my own opinion it would be attaching undue importance & take away notice of them.

Yours truly
Chas. W. Saunders
